EXCELLENT
SERVICE
& QUALITY

All our work is completed to a very high standard

We can replace your existing polycarbonate or glass roof with a lightweight tiled slate roof that is fully insulated, to keep the heat in during winter and prevent the sun from overheating your conservatory during summer.

BEFORE

Conventional Conservatory

Heat is lost through the glass on cold days

AFTER

My Conservatory Roof Replacement

Less glass with no heat escaping from the roof

Our slates come in traditional colours such as Pewter Grey and Plum, with many other bold colour options available to suit your home.

Here at My Conservatory Roof Replacement we transform your conservatory roof into an all year round living space. **WE LOVE** making the customers happy that is why we offer endless benefits with our slated roof system. Take a look at some of our recent transformations below.
